

Acceptable Use Policy

Entire Wireless

A Natures Wireless LLC Company

Effective Date: 09/15/2026

This Acceptable Use Policy ("Policy") applies to all internet, wireless broadband, data, equipment, network access, and related services provided by Entire Wireless ("Entire Wireless," "we," "our," or "us"). This Policy is designed to protect our customers, our network, our business operations, and the broader internet community from unlawful, harmful, abusive, or disruptive activity.

By using Entire Wireless services, equipment, website, network, or related systems, you agree to comply with this Policy, our service agreements, posted terms, applicable laws, and any other policies made available by Entire Wireless.

This Policy applies to all customers, account holders, authorized users, household members, business users, guests, employees, contractors, and any person or device using services provided through an Entire Wireless account.

1. Purpose of This Policy

The purpose of this Acceptable Use Policy is to:

- Promote lawful, safe, and responsible use of Entire Wireless services;
- Protect the reliability, security, and performance of our network;
- Prevent fraud, abuse, unauthorized access, and harmful activity;
- Protect customers and third parties from spam, malware, harassment, and other online threats;
- Help ensure fair access to network resources for all customers;
- Explain prohibited activities and possible enforcement actions.

Entire Wireless reserves the right to take appropriate action when use of our services violates this Policy, interferes with our network, harms other users, or exposes Entire Wireless to legal, technical, financial, or security risks.

2. Customer Responsibility

Customers are responsible for all activity that occurs through their Entire Wireless account, connection, equipment, modem, router, SIM card, assigned IP address, login credentials, or network access.

This responsibility applies whether the activity is performed by:

- The account holder;
- Household members;
- Employees or contractors;
- Guests or visitors;
- Devices connected to the customer's network;
- Unauthorized users who gained access due to unsecured Wi-Fi, shared passwords, compromised devices, or customer negligence.

Customers are responsible for securing their devices, Wi-Fi networks, passwords, routers, modems, and connected equipment. Customers should use strong passwords, enable available security features, update devices regularly, and prevent unauthorized access to their network.

Failure to secure a network or device does not excuse violations of this Policy.

3. Lawful Use Required

Entire Wireless services may only be used for lawful purposes. Customers may not use our services to engage in, assist, encourage, promote, or conceal illegal activity.

Prohibited unlawful activity includes, but is not limited to:

- Violating federal, state, local, or international laws;
- Distributing, downloading, transmitting, or storing illegal content;
- Fraud, identity theft, phishing, impersonation, or financial scams;
- Unauthorized access to computer systems, accounts, servers, or networks;
- Theft or misuse of intellectual property;
- Distribution of malware, viruses, ransomware, spyware, or harmful code;

- Illegal gambling, trafficking, exploitation, or other unlawful conduct;
- Activity that violates court orders, regulatory requirements, or law enforcement directives.

Entire Wireless may cooperate with lawful requests from law enforcement, courts, regulators, or other authorized governmental entities as required or permitted by law.

4. Prohibited Network and Security Activity

Customers may not use Entire Wireless services in any way that harms, disrupts, attacks, overloads, scans, probes, compromises, or interferes with any network, system, device, server, or user.

Prohibited network and security activity includes, but is not limited to:

- Hacking, cracking, intrusion attempts, or unauthorized access;
- Port scanning, vulnerability scanning, or network probing without authorization;
- Denial-of-service attacks, distributed denial-of-service attacks, or traffic flooding;
- Packet spoofing, IP spoofing, MAC address spoofing, or header manipulation;
- Attempting to bypass authentication, security controls, usage limits, or access restrictions;
- Interfering with the service of another customer or third party;
- Operating open proxies, open relays, botnets, command-and-control systems, or similar services;
- Using compromised devices or infected equipment to generate harmful traffic;
- Attempting to disrupt, damage, reverse engineer, or interfere with Entire Wireless systems, equipment, software, or

network infrastructure.

Customers must not attempt to gain unauthorized access to Entire Wireless systems, customer accounts, network management tools, provisioning systems, billing systems, or any other restricted platform.

5. Spam, Messaging Abuse, and Unwanted Communications

Customers may not use Entire Wireless services to send, transmit, facilitate, or support spam, abusive messaging, or unwanted communications.

Prohibited activity includes, but is not limited to:

- Sending unsolicited bulk email;
- Sending spam texts, robocalls, or mass messaging campaigns;
- Using the service to operate spam servers, mail relays, or automated messaging systems;
- Harvesting email addresses, phone numbers, or contact information without permission;
- Phishing, spoofing, impersonation, or deceptive communications;
- Sending messages that contain malware, fraudulent links, or misleading claims;
- Continuing to contact individuals who have opted out or requested no further communication.

Entire Wireless may take action if customer activity causes our network, IP addresses, systems, or upstream providers to be listed on spam, abuse, fraud, or security blocklists.

6. Malware, Viruses, and Harmful Code

Customers may not use Entire Wireless services to create, transmit, host, distribute, store, or support malware or harmful code.

This includes, but is not limited to:

- Viruses;
- Worms;
- Trojan horses;
- Ransomware;
- Spyware;
- Keyloggers;
- Botnet software;
- Credential theft tools;
- Malicious scripts;
- Exploit kits;
- Any code intended to damage, disrupt, monitor, steal, or gain unauthorized access.

If Entire Wireless detects or receives notice that a customer device may be infected or generating malicious traffic, we may notify the customer, restrict service, suspend service, require remediation, or take other enforcement action.

7. Copyright, Trademark, and Intellectual Property

Customers may not use Entire Wireless services to violate the intellectual property rights of others.

Prohibited activity includes, but is not limited to:

- Downloading, uploading, sharing, streaming, hosting, or distributing copyrighted material without authorization;
- Using peer-to-peer file sharing or other services to unlawfully distribute movies, music, software, games, books, or

other protected content;

- Selling, distributing, or promoting counterfeit goods;
- Misusing trademarks, logos, copyrighted works, or proprietary materials;
- Circumventing digital rights management or access controls.

Entire Wireless may respond to copyright or intellectual property complaints as required or permitted by law.

Repeated violations may result in service suspension or termination.

8. Harassment, Threats, Abuse, and Harmful Conduct

Customers may not use Entire Wireless services to harass, threaten, abuse, intimidate, stalk, defame, exploit, or harm others.

Prohibited conduct includes, but is not limited to:

- Threats of violence or harm;
- Harassment, stalking, or targeted abuse;
- Doxxing or publishing private personal information without authorization;
- Extortion, blackmail, coercion, or intimidation;
- Impersonation or deceptive identity practices;
- Encouraging self-harm, exploitation, or abuse;
- Content or activity that is unlawful, abusive, or creates a safety risk.

Entire Wireless may take enforcement action if customer activity creates legal, safety, reputational, or operational risk.

9. Obscene, Exploitative, or Illegal Content

Customers may not use Entire Wireless services to access, transmit, store, promote, or distribute content that is illegal or prohibited by applicable law.

This includes, but is not limited to:

- Child sexual abuse material or exploitative content;
- Non-consensual intimate images;
- Human trafficking or exploitation;
- Content involving unlawful threats, abuse, or coercion;
- Content that violates applicable obscenity or exploitation laws;
- Any content that Entire Wireless is legally required or permitted to restrict, report, or remove.

Entire Wireless may report suspected illegal content or activity to appropriate authorities where required or permitted by law.

10. Fraudulent, Deceptive, or Misleading Activity

Customers may not use Entire Wireless services for fraudulent, deceptive, or misleading activity.

Prohibited activity includes, but is not limited to:

- Phishing or credential theft;
- Fake websites or impersonation pages;
- Payment fraud or chargeback fraud;
- Identity theft;
- Account takeover attempts;
- Misrepresentation of affiliation with Entire Wireless or another company;
- Fake technical support scams;
- Deceptive advertising or misleading commercial activity;
- Unauthorized resale or redistribution of Entire Wireless services.

Customers may not use Entire Wireless branding, name, systems, or services in a way that falsely suggests authorization, partnership, sponsorship, or endorsement.

11. Excessive, Abusive, or Unreasonable Network Use

Entire Wireless provides internet services for normal residential, business, or approved customer use, depending on the customer's service plan. Customers may not use the service in a way that damages, degrades, burdens, or interferes with the network or the service experience of other customers.

Prohibited or restricted activity may include:

- Generating excessive traffic that negatively impacts network performance;
- Operating servers or high-traffic services not permitted by the customer's plan;
- Continuous automated activity that causes network strain;
- Circumventing network management, speed, data, device, or plan limitations;
- Using the service in a manner inconsistent with the purchased plan;
- Using residential service for unauthorized commercial resale or redistribution;
- Connecting excessive devices or systems in a way that impacts network stability;
- Using the service for data center, hosting, mining, automated scraping, or similar high-intensity activity unless

expressly approved in writing.

Entire Wireless may use reasonable network management practices to protect network performance, reliability, security, and customer experience.

12. Resale, Sharing, or Redistribution of Service

Customers may not resell, redistribute, share, sublicense, or provide Entire Wireless service to others outside the authorized service location or account without prior written approval from Entire Wireless.

Prohibited activity includes, but is not limited to:

- Selling access to Entire Wireless service;
- Sharing service with neighboring properties or unrelated locations;
- Operating a public hotspot, paid Wi-Fi service, or community network without approval;
- Using Entire Wireless service as backhaul for another provider or business;
- Moving equipment, SIM cards, routers, or modems to unauthorized locations;
- Using service in a manner that violates plan restrictions or coverage requirements.

Entire Wireless may suspend or terminate service if unauthorized resale, redistribution, or relocation is detected.

13. Equipment, SIM Cards, Modems, and Network Devices

Customers must use Entire Wireless equipment, SIM cards, modems, routers, and related devices only as authorized.

Customers may not:

- Tamper with, alter, unlock, reprogram, damage, or modify equipment;
- Remove, transfer, or misuse SIM cards;
- Use unauthorized equipment or incompatible devices;
- Attempt to bypass device restrictions, provisioning controls, or network settings;
- Sell, rent, transfer, or dispose of equipment owned by Entire Wireless without permission;
- Use equipment for unlawful, abusive, or unauthorized purposes;
- Fail to return equipment when required under the customer agreement.

Entire Wireless may require customers to update, replace, return, or reconfigure equipment to maintain service, security, compatibility, or network performance.

14. Service Location and Coverage Requirements

Certain Entire Wireless services may be designed for use at an approved service address, coverage area, or designated location.

Customers may not move, relocate, or use service equipment at another address or location unless permitted by Entire Wireless. Unauthorized relocation may result in reduced performance, service interruption, billing issues, suspension, or termination.

Service availability, speed, reliability, and performance may vary based on location, signal strength, network conditions, equipment, building materials, congestion, weather, maintenance, and other factors.

15. Privacy and Security Expectations

Customers are responsible for maintaining the privacy and security of their own devices, accounts, passwords, home networks, business networks, and connected systems.

Entire Wireless recommends that customers:

- Use strong Wi-Fi passwords;
- Change default router or modem passwords;
- Keep operating systems and applications updated;
- Use antivirus or endpoint protection where appropriate;
- Avoid suspicious links, attachments, and downloads;
- Secure smart home and internet-connected devices;
- Monitor account activity and report suspected compromise.

Entire Wireless is not responsible for customer device infections, compromised accounts, unauthorized Wi-Fi access, data loss, or third-party security incidents unless required by applicable law or expressly stated in a written agreement.

16. Cooperation with Investigations

Entire Wireless may investigate suspected violations of this Policy, customer agreements, security alerts, abuse complaints, law enforcement notices, copyright complaints, network incidents, fraud reports, or other concerns.

Customers agree to cooperate with reasonable investigations, including by:

- Responding to notices from Entire Wireless;
- Correcting prohibited activity;
- Securing compromised devices or networks;
- Providing accurate account and contact information;
- Returning or replacing equipment when required;
- Stopping activity that violates this Policy.

Failure to cooperate may result in enforcement action.

Enforcement Policy

Entire Wireless reserves the right to enforce this Acceptable Use Policy in a manner we determine appropriate based on the nature, severity, frequency, and impact of the violation.

17. Enforcement Actions

If Entire Wireless determines, suspects, or receives credible notice that a customer has violated this Policy, we may take one or more of the following actions, with or without prior notice where permitted by law:

- Issue a warning or written notice;
- Request that the customer stop the activity;
- Require the customer to secure devices, change passwords, update equipment, or remove harmful software;
- Temporarily restrict, filter, block, or limit certain traffic;
- Temporarily reduce speeds or limit network access;
- Suspend service;
- Terminate service;
- Refuse future service;
- Remove, disable, or block access to offending content, systems, or traffic where technically feasible;
- Require return of equipment;
- Charge applicable fees under the customer agreement;
- Report unlawful activity to law enforcement, regulators, copyright owners, security organizations, or other appropriate

parties;

- Cooperate with legal process, subpoenas, court orders, or government requests;
- Take any other action allowed by the customer agreement, this Policy, or applicable law.

Entire Wireless is not required to monitor all customer activity and does not guarantee that every violation will be detected or prevented.

18. Immediate Suspension or Termination

Entire Wireless may immediately suspend or terminate service without prior notice if we determine that customer activity:

- Poses a security threat;
- Harms or disrupts the Entire Wireless network;

- Interferes with service provided to other customers;
- Exposes Entire Wireless to legal, financial, reputational, or operational risk;
- Involves fraud, abuse, illegal content, threats, harassment, or exploitation;
- Results in complaints from law enforcement, regulators, copyright owners, upstream providers, network operators, or

security organizations;

- Violates applicable law or court order;
- Involves unauthorized resale, redistribution, or relocation of service;
- Involves tampering with equipment, SIM cards, or network settings.

Service suspension or termination does not waive the customer's responsibility for outstanding balances, equipment charges, return obligations, early termination charges, or other amounts owed under the customer agreement.

19. Customer Notice and Opportunity to Cure

When appropriate, Entire Wireless may provide notice of a suspected violation and allow the customer an opportunity to correct the issue. However, Entire Wireless is not required to provide advance notice or an opportunity to cure when immediate action is necessary to protect the network, customers, business operations, legal compliance, or public safety.

If a customer receives a violation notice, the customer must promptly stop the prohibited activity and take corrective action. Entire Wireless may require written confirmation that the issue has been resolved before restoring or continuing service.

20. Repeat Violations

Repeated violations of this Policy may result in stronger enforcement action, including permanent termination of service and refusal of future service.

Repeat violations may include:

- Multiple abuse complaints;
- Repeated copyright or intellectual property complaints;
- Continued spam or malware activity;
- Ongoing excessive or disruptive network use;
- Repeated failure to secure compromised devices;
- Continued unauthorized resale or relocation;
- Failure to comply with prior warnings or corrective instructions.

Entire Wireless may determine repeat violation status at its discretion based on account history, complaint records, network activity, or other relevant information.

21. No Waiver of Rights

Failure by Entire Wireless to enforce any part of this Policy at any time does not waive our right to enforce the same or any other provision later.

Entire Wireless may enforce this Policy selectively or differently depending on the facts and circumstances of each case.

22. Changes to This Policy

Entire Wireless may update, revise, or replace this Acceptable Use Policy at any time. Updated versions may be posted on our website, included with customer communications, or otherwise made available to customers.

Continued use of Entire Wireless services after an updated Policy is posted or provided constitutes acceptance of the updated Policy.

23. Contact Information
